

SAFETY DATA SHEET

I. IDENTIFICATION

Product Name: **Calm Down Powder**

Company Information:

PRIIA® Cosmetics

3012 Emrick Boulevard, Bethlehem PA 18020

610.438.8223

www.priia.com

Emergency Contact: **Customer Service** Email: information@priia.com

Recommended Use: **A cosmetic product designed to be used on the face, neck and/or body.**

II. HAZARDS IDENTIFICATION

This is a personal care or cosmetic product which is safe for consumers and professionals under intended and reasonably foreseeable uses.

Eyes: **Contact may cause mild, transient irritation. Redness or stinging may occur.**

Skin: **Not expected to be irritating, sensitizing, photoallergenic or phototoxic when used as intended. If irritation occurs following intended use or prolonged contact, then it is expected to be mild and transient.**

Inhalation: **Not expected to be irritating to the respiratory system.**

Ingestion: **Product is not intended to be ingested. Accidental ingestion may cause mild gastrointestinal irritation with potential nausea, vomiting and diarrhea.**

III. COMPOSITION

The complete ingredient list for the finished product is as follows:

Kaolinite (White Clay), Zinc Oxide (CI77947), Oryza Sativa (Rice) Starch, Pearl Powder, Caprylic/Capric Triglyceride, Chamomilla Rectita (Matricaria) Flower Extract, Allantoin.

CAS NUMBER	INGREDIENT NAME
1332-58-7	KAOLINITE
1314-13-2	ZINC OXIDE
9005-25-8	RICE STARCH
UNKNOWN	PEARL POWDER
65381-09-1	CAPRYLIC/CAPRIC TRIGLYCERIDE
84649-86-5	CHAMOMILE EXTRACT

Impurities and stabilizing additives, which are themselves classified and which contribute to the classification of the chemical: **Not Applicable.**

Exact percentages are a trade secret.

IV. FIRST AID MEASURES

Eyes: Thorough rinsing of the eye area with water or milk for a period of 15 minutes is recommended, lifting upper and lower lids occasionally. If irritation persists, seek medical attention. This is considered a highly unlikely event.

Skin: If rash or irritation develops, then discontinue the use of this product. If discomfort persists, contact a physician. This is considered a highly unlikely event.

Inhalation: If respiratory irritation occurs, remove affected individual(s) to fresh air. If the individual has difficulty breathing or tightness of the chest, is dizzy, vomiting or unresponsive, give 100% oxygen with rescue breathing or CPR as required, and transport to the nearest medical facility. This is considered a highly unlikely event.

Ingestion: Accidental ingestion of product may necessitate medical attention. In case of accidental ingestion, dilute with fluid (water or milk) and treat symptomatically. Do not induce vomiting. Contact the local Poison Control Center or seek medical attention. This is considered a highly unlikely event.

V. FIRE FIGHTING MEASURES

Flammability Classification: **Non-Flammable.**

Flash Point (F): **Not applicable.**

Extinguishing Medium: Product is not known to be flammable, combustible, pyrophobic or explosive. Accordingly, extinguishing media is not applicable; choose extinguishing media suitable for surrounding materials.

Unusual Fire + Explosion Hazards: **Not applicable.**

VI. ACCIDENTAL RELEASE MEASURES

Personal Precautions: No obvious personal protective equipment is needed when cleaning up spills.

Spills Procedure: Collect material for disposal. Wash away with warm water or absorb with sand, rags, or sweeping compound.

Environmental Considerations: Material is biodegradable and not considered to be an environmental hazard.

VII. HANDLING + STORAGE

Handling: Do not ingest. Keep away from eyes. Handle in accordance with good hygiene and safety procedures.

Storage: Keep in a tightly closed container. Store in a cool, dry area away from direct sunlight.

Shelf Life: Twelve months from date of manufacture, provided that product is properly stored and handled.

VII. EXPOSURE CONTROLS + PERSONAL PROTECTION

OSHA's Permissible Exposure Limits (PLEs): Not applicable.

American Conference of Governmental Industrial Hygienists (ACGIH) Threshold Limit Values (TLVs): Not applicable.

Ventilation is not required under normal conditions of use. Respiratory protection is not required under normal conditions of use. No need for protective clothing is anticipated. No eye protection is necessary under normal use.

VIII. PHYSICAL + CHEMICAL PROPERTIES

- Appearance: White Powdered Material.
- Upper/lower flammability or explosive limits: Unknown.
- Odor: Odorless.
- Vapor pressure: Unknown
- Odor threshold: Unknown.
- Vapor density: Unknown.
- pH: Not applicable.
- Relative density: Unknown.
- Melting point/freezing point: Not applicable.
- Solubility: Unknown.
- Initial boiling point and boiling range: Not applicable.
- Flash point: Unknown.
- Evaporation rate: Unknown.
- Flammability (solid, gas): Unknown.
- Partition coefficient: Unknown.
- Auto-ignition temperature: Unknown.
- Decomposition temperature: Unknown.
- Viscosity: Unknown.

IX. STABILITY + REACTIVITY

Stability: This material is considered stable under normal conditions. It is generally nonreactive.

Conditions to avoid: None determined.

Hazardous Decomposition: None determined.

Incompatibility (materials to avoid): None determined.

Polymerization: Cannot occur.

X. TOXICOLOGY INFORMATION

This is a personal care or cosmetic product which is safe for consumers and professionals under intended and reasonably foreseeable uses.

There is no toxicological data for this material. Adverse health effects are neither known nor expected under normal use.

This product is not a known carcinogen.

XI. ECOLOGICAL INFORMATION

The product ingredients are expected to be safe for the environment at concentrations predicated under normal use and accidental spill scenarios.

Packaging components are compatible with the conventional solid waste management practices.

The material is primarily organic and therefore expected to be biodegradable.

XII. DISPOSABLE CONSIDERATIONS

Dispose of in accordance with federal, state, and local regulations. Please refer to section 8 (Exposure + Controls) of this SDS for information about personal protection equipment that may be necessary during disposal.

XIII. TRANSPORTATION INFORMATION

Finished package product transported by ground (DOT): Nonhazardous.

Finished packaged product transported by vessel (IMDG): Nonhazardous.

Finished packaged product transported by air (IATA): Nonhazardous.

XIV. REGULATORY INFORMATION

This product is regulated as a cosmetic under FDA (US), Health Canada (Canada), Cosmetic Directive (EU), MHW (Japan), and MOH (China).

This product contains no known hazardous materials in reportable levels as defined by OSHA Hazard Communication Standard 29 CFR 1910.1200 and as defined under SARA § 311 and § 312.

California Proposition 65: This product does not contain ingredients which are known to the State of California to cause cancer, birth defects, or other reproductive harm.

XV. OTHER INFORMATION

This SDS is intended to provide a brief summary of our knowledge and guidance regarding the use of this material. The information contained herein has been compiled from sources considered by PRIIA® Cosmetics to be dependable and is accurate to the best of our knowledge. It is not meant to be an all-inclusive document on worldwide hazard communication regulations.

This information is furnished without warranty, expressed or implied, except that it is accurate to the best knowledge of PRIIA® Cosmetics.

The data in this Safety Data Sheet relates only to the specific material designated herein. It does not relate to use in combination with any other material or in any process

Preparation Date: **November 2017**

Revisions: **NONE**
